HOW-TO GUIDE

YOUR FIRST QUERY IN 5 STEPS

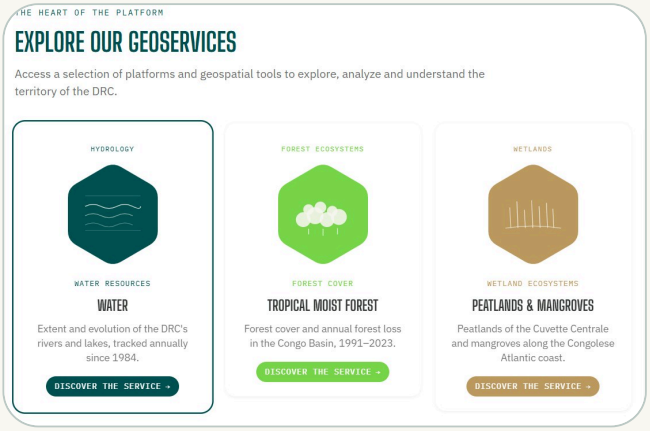

1 Go to the platform

On a computer or a phone.

geoservices-rdc.com

2 Choose a service

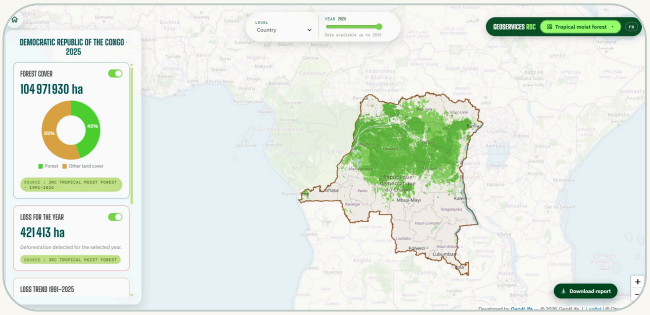

In “Explore our geoservices”, click **Discover the service**.

WORKED EXAMPLE Tropical moist forest service, year 2025

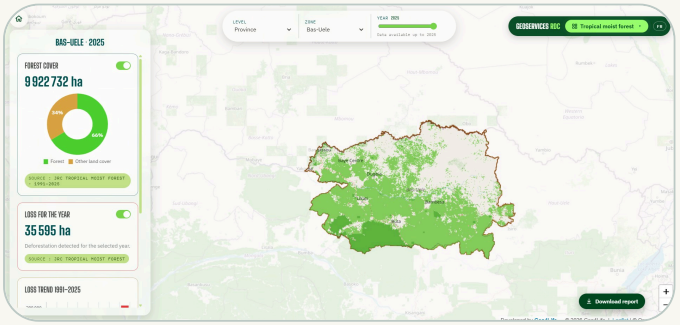

3 The national result appears

Map and statistics for the whole DRC: **104,971,930 ha** of forest (45%) and **421,413 ha** lost during the year.

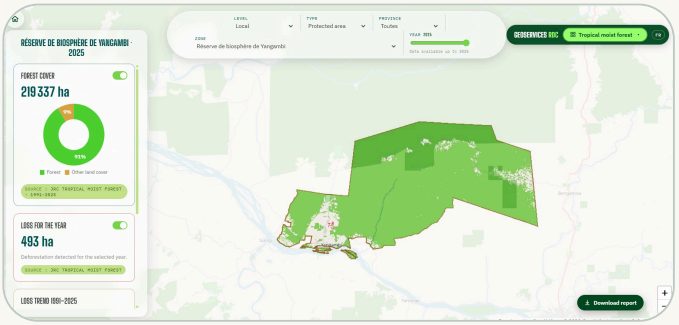

4 Change scale

Level menu: Country, Province, Territory or Local (protected area or forest concession). At each choice, the platform recalculates the map and statistics.

Province · Bas-Uele — 9,922,732 ha of forest (66%)

Local · Yangambi Biosphere Reserve — 219,337 ha of forest (91%)

5 Download the report

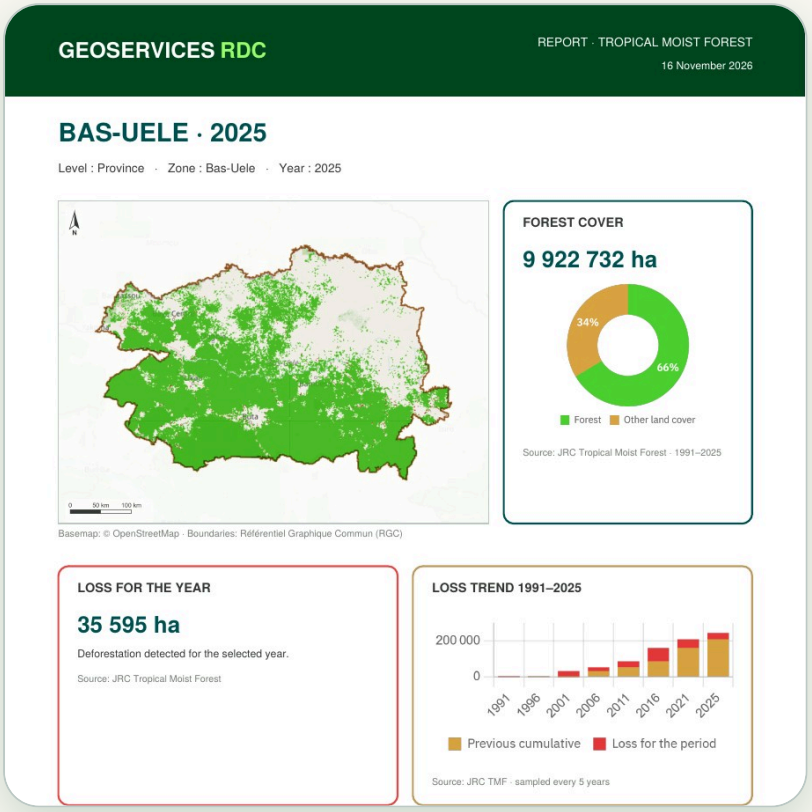

One click on **Download report** gives you a PDF of your query. See next page.
